Date Sent \_\_\_\_\_

**IMPORTANT: PLEASE READ**

- Call or email us within 3 days and confirm your size details.
- Your ring can be made to a ¼ size at your request.
- We will send additional sizing rings at your request and after the original rings are returned.
- Sizing rings may be stacked, if necessary, to match the width of your ring.
  
- Complete this form and return it with sizing rings in the envelope provided.
- We must *receive* sizing rings back *before* your ring is shipped.
- We will assess a \$50 charge for *each* lost or unreturned sizing ring.
  
- If a ring must be resized after completion, a re-sizing charge will apply.

**How To Determine a Good Fit:**

- 1) Wear the ring for a couple of days. If you cannot do this, then try the ring on in the morning, evening, and in the shower.
- 2) Cold water test: Run your hand in cold water and shake it. The ring should not slip off.
- 3) Make sure the ring does not bother the pinky or middle finger when making a fist.
- 4) It may take a little bit of effort to shimmy the ring over the knuckle. Forcing a snug ring on and off a few times will cause the finger joint to swell slightly. Use dish soap and cold water to remove a stubborn ring. Rings may feel tighter in the summer and looser in the winter.

**Additional Notes for Top Heavy or Engagement Rings:** We encourage a tighter fit for engagement rings or rings with a top. When sizing for a top heavy ring with a plain sizing band, the ring should “stick” to the skin so it does not slip around the finger when top heavy. A floppy ring is bothersome.

**AGREEMENT:** I have reviewed the invoice and made corrections above for the accurate ring size. If my final ring must be re-sized after completion, I agree to pay for re-sizing. I understand that my final ring will not be shipped until sizing rings are received by Krikawa. If sizing rings are lost or not returned, I understand that \$50 per ring will be added to my final invoice.
